

TRIP REPORT

SPRING BIRDS & MAMMALS 23-30 APRIL 2016

8 DAY MAMMAL WATCHING TOUR
IN THE BIAŁOWIEŻA FOREST AND BIEBRZA MARSHES

(TEXT AND) PHOTOGRAPHS BY JAREK MATUSIAK. TRANSLATION INTO ENGLISH BY ŁUKASZ MAZUREK

TOUR LEADER: JAROSŁAW MATUSIAK

PARTICIPANTS: ANDREW & CAROLYN (AU)

WILDLIFE: 15 MAMMAL AND 158 BIRD SPECIES RECORDED, FULL CHECKLIST ON PAGE 10

DAY 1, SATURDAY 23RD APRIL - ARRIVAL

This was a private departure and we picked up our company of Andrew and Carolyn at a hotel in downtown Warsaw in the morning and we were soon on our way towards Białowieża. As we left Warsaw we could see the landscape gradually changing and the first **White Storks, Buzzards, Roe Deer** and even a **Sparrowhawk** were seen on our way.

As wished by Andrew and Carolyn we stopped at the Holy Hill of Grabarka, a renown orthodox pilgrimage site with thousands of crosses put up at the hill around the old wooden orthodox church. Birds seen here included **Common Redstarts, Chaffinch and Wood Pigeons**.

After a brief stop for lunch at a local bar (wonderful dumplings and soup) we were soon in the Białowieża Forest and had a short walk to get accustomed with the forest and heard the first forest birds like **Firecrest, Bullfinch** or **Waxwing** (still wintering).

After checking in and a fantastic dinner we drove just outside the village to spend an hour at a viewing tower in the river valley. Heard **Spotted Crane, Water Rail, Common Snipe, Green Sandpiper** and several pairs of **Tawny Owl** at dusk.

DAY 2, SUNDAY 24TH APRIL - BIAŁOWIEŻA

WEATHER CHANGED, DRIZZLE AND LOW CLOUDS

We started after breakfast. Met our local guide Irek for a few hrs walk in the strictly protected area of the Białowieża National Park. Having stopped in the village park to get tickets we have already seen a **Wryneck, Collared Flycatcher** and a **Red Squirrel**. Still before entering the strict reserve we have also seen **Tree Pipits, Whinchats, Great Grey Shrike** and plenty of **Starlings** and **Yellowhammers**.

The walk with Irek was very informative and included not only the ecology of the natural forest but also a lot of history. We have seen a **Lesser, Middle and Greater Spotted Woodpeckers**, heard a **Three-toed Woodpecker**, saw many **Collared Flycatchers** and **Nuthatch**, heard **Goldcrests, Firecrests, Tree creepers** and **Cranes**.

After lunch back at our lodge we attempted at finding some European Bison in the wild, which proved to be difficult so we ended up at the southern edge of the Siemianówka Reservoir in the north of the forest. In the shallow flooded meadows we have seen **Gadwalls, Shovelers, Wigeons, Garganeys, Teals, Grebes** and numerous **Great White Egrets** in breeding plumage. Just in front of the viewing tower there was a family of **Long-tailed Tits** that gave great views. On our way back we have spotted a **Brown Hare** and a **Red Fox**.

After the usual delicious dinner we took a short drive into the forest in search of the owls. Heard many **Thrushes, Robins, White-backed** and **Three-toed Woodpeckers** drumming. Two male **Pygmy Owls** called back from the nearby Spruce trees but did not want to show well. **Long-eared Owl** calling, some fresh footprints (**Deer, Fox, Wolf**) and a yet another **Fox** seen were a nice finish to the whole evening.

DAY 3, MONDAY 25TH APRIL - BIAŁOWIEŻA

LOW CLOUDS, CHILLY, DRIZZLE

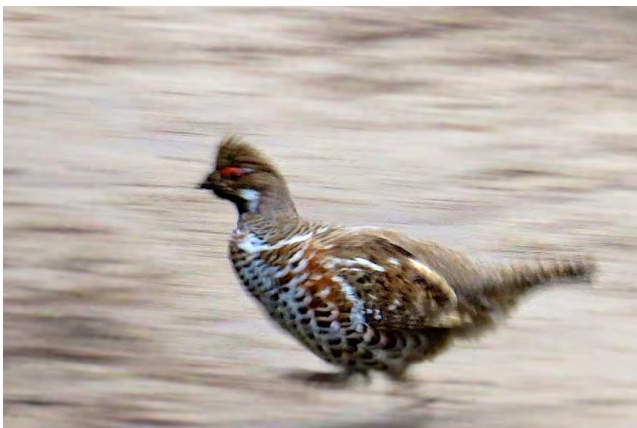

We started early before breakfast for chances of Bison at the forest edge and our efforts were soon rewarded with great views of **5 Bison bulls**. After some time the bulls slowly moved back into the forest and we enjoyed the views of local birds like **Great Grey Shrike, Wrynecks, Whinchats, Cranes**. Many woodpeckers were vocally active. We visited a few more glades in the forest but saw no more Bison.

On our way back we stopped at a site that looked just perfect for the **Three-toed Woodpecker** and indeed within seconds we saw one feeding high up. We had some

fantastic views but this woodpecker was suddenly bested by a **Pygmy Owl** that sat just above it with a morning prey. What a morning!

After breakfast we took a walk through a tremendous variety of forest habitats near the Belarus Border. Just after entering the forest we had great views of a male Hazel Grouse running across the path and calling. Next were evenly great views of **Grey-headed, Middle Spotted, White-backed** and **Lesser Spotted Woodpeckers, Dunnock** (not such a common bird here!), **Green Sandpipers** and **Firecrests**. Footprints of **Wolf** and some fresh droppings of **Raccoon Dogs** were also seen.

After dinner we visited the Kosy Most area in the centre of the forest and had good views of a **Stock Dove, Ravens** and a pair of **Black Woodpeckers** plus more **Wolf** pooh. It's been a long day so we took some rest after dinner today.

DAY 4, TUESDAY 26TH APRIL - BIAŁOWIEŻA, SIEMIANÓWKA

SUNNY AND COOL WEATHER

After breakfast we drove up north to the Siemianówka Reservoir. Saw some **Hoopoes** on the way. At our first stop at the Lake we saw singing **Great Reed Warblers**, **Marsh Harriers**, **Little Grebes** and an **Osprey**. **Bittern** was also booming from the nearby reed bed. There were also a full set of ducks, **Whopper Swans**, **Geese**, **Common** and **Black Terns** as well as some waders: **Black-tailed Godwits**, **Greenshanks**, **Redshanks**, **Snipe** and **Curlew**.

There were also 4 young **White-tailed Eagles** in the air and 2 adult ones patiently perched up watching the waterfowl.

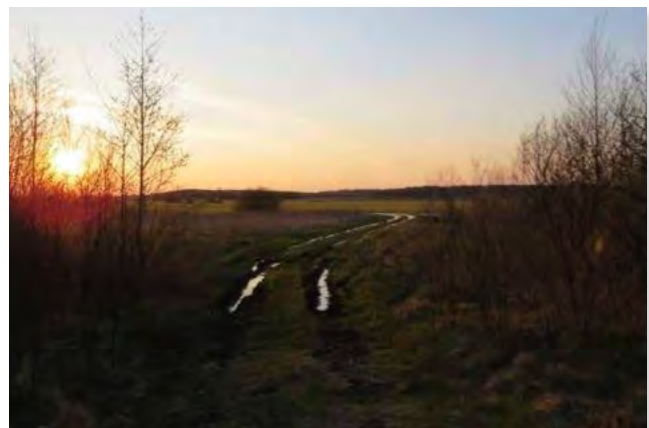

At the next stop we saw more **Great White Egrets**, a yet another **White-tailed Eagle**, **Whinchat** and a **Great Grey Shrike**. Moving further east we also saw a **Penduline Tit** building its nest, a **Wryneck** and **Willow Tits**.

On our way back for lunch we stopped at the local mini zoo mistakenly named the Bison Reserve, to watch Bison, Wolves, Lynx, Deer, Elk and Boar.

After dinner we visited a **Great Snipe lek** in the Narew river valley. There were some flocks of **Ruffs** and **Wood Sandpipers** flying over, **Cranes**, **Black-tailed Godwits** and **Redshanks** calling, many **Common Snipe** and 5-8 **Great Snipe** lekking nearby.

Several **Roe Deer** and **Brown Hares** were seen on our way back.

DAY 5, WEDNESDAY 27TH APRIL - BIAŁOWIEŻA TO BIEBRZA

ANOTHER SUNNY DAY

After the usual hearty breakfast we have set off for a full day journey towards the Biebrza Marshes. Not that it was that far, but we had several interesting sites to visit on the way.

The first one were the Dojlidy Fishponds near Białystok. Seen **Penduline Tits** and **Common Redstarts** as we approached, plenty of very loud **Black-headed Gulls**, good views of a **Little Crake**, **Red** and **Black-necked Grebes**, **Common Sandpipers** and **Marsh Harriers**. We have also spotted a **Lesser Black-backed Gull**, a **Little Gull** and a few **Common** and **Caspian Gulls**. We even briefly saw a **Kingfisher** flying over one of the canals there.

Next on the list were the fishponds near Knyszyn. There, we saw flocks of **Ruffs** in breeding plumage, **Wood Sandpipers**, **Greenshanks** and a single **Marsh Sandpiper** plus other typical birds of the fishponds.

We stopped at a lovely little town of Tykocin for lunch (delicious dumplings and fish soup) and continued our journey. After lunch we firstly stopped at the nearby Pentowo Stork Village with **22 White Stork nests** taken this spring. Most of the nests were visible very well from above thanks to the huge viewing tower located among them. Two **Hoopoes** gave us some great views there, as did the **Green Woodpeckers** and a few other common birds.

Our first stop in the Biebrza Marshes was the famous Długa Luka offering great views into the vast fen.

Immediately we have heard the first **Savi's Warblers**, **Cuckoos** and **Black-tailed Godwits** and **Redshanks** disturbed by **Marsh Harriers**. After a short time at the boardwalk there we also saw **Curlews** and **Montagu's Harriers** followed by a few **Buzzards**, one late **Rough-legged Buzzard** and finally - a **Short-eared Owl** flying low over the marsh.

On our way to the guesthouse for dinner, we saw a **Red Squirrel**, **Brown Hare** and a **Red Fox** from the minibus.

DAY 6, THURSDAY 28TH APRIL - BIEBRZA SOUTHERN BASIN

SNOW IN THE MORNING

We started after breakfast in the south of the Biebrza Valley and immediately saw some **Black Storks**, **Cranes**, **Curlew** and **Whimbrel**. In a ditch just next to the track there were obvious **Beavers** and **Otters** dens. In the meadows there were plenty of **Wood Sandpipers** and **Ruffs** and further away near the river - flocks of **Swans**, **Egrets** and **Hérons**. In the ditch itself we have found some **Caddis Fly** larvae and **Tadpole Shrimps**.

After dinner we headed for Bagno Zajki to watch **Eagles** and other raptors. We saw several **Lesser Spotted Eagles**, **Marsh Harriers**, **Common Buzzards**, **Kestrel** and a **Goshawk**. Many other marshland birds were also there and we even got a good view of a **White-backed Woodpecker**. Signs of wolves activity were a nice bonus.

On our way back we have stopped at the Długa Luka where we heard the first **Aquatic Warbler** and had much better views of a **Rough-legged Buzzard** and **Montagu's Harriers**.

After a delicious dinner we have once again boarded our minibus for a short drive towards the banks of the Narew River for a boat trip in search of **Beavers**. We didn't have to wait long as the first **Beaver** showed up just as we were boarding the boat. In the next 1,5 hrs we have seen a total of **14 Beavers**, mostly young ones from previous years but also a few adults marking the territory. One young Beaver, busy feeding, allowed us to get as close as a few feet. All of that was accompanied by numerous flocks of **Geese** flying over, humming of **Fire-bellied Toads** and loud calls of **Tree Frogs** as well as silent calls of **Little Ringed Plovers** and **Common Sandpipers**.

On the way back to the hotel we saw a herd of **Red Deer** and a **Red Fox**.

DAY 7, FRIDAY 29TH APRIL - BIEBRZA MARSHES

After an early breakfast we visited the Middle Basin of Biebrza Marshes. Saw numerous **Cranes** as well as flocks of **Gees** on the way. Once there, waders we abundant: **Lapwings, Redshanks, Godwits, Wood Sandpipers, Ruff** and **Common Snipe** and we also saw **Citrine Wagtails**. **Sedge** and **Savi's Warblers** were numerous, as were **Montagu's Harriers** disturbing them.

In the Goniądz area we saw more **Geese**, **Godwits**, another **Citrine Wagtail**, **Roe Deer** and one **Elk**. An interesting stop was a sighting of an old **Marsh Harrier** male preying upon **Godwits'** chicks and fighting with **Crows**.

We stopped for lunch at the eccentric Bartla tavern and had gorgeous pierogi (dumplings) stuffed with Bison meat. Afterwards we visited the Osowiec area and a boardwalk there with plenty of typical marshland species, incl. **Bluethroat** and a **White-tailed Eagle**.

DAY 8, SATURDAY 30TH APRIL - BACK TO WARSZAWA

BEAUTIFUL SUNNY SPRING WEATHER

We chose to say our goodbyes to the Marshes in the south of the Biebrza Marshes near Rutkowskie. Saw numerous flocks of **Ruff**, **Wood Sandpipers**, **Bean Geese**, **White-winged** and **Whiskered Terns**, **Great White Egrets**, **Cranes** and a **Peregrine Falcon**.

At a yet another stop we saw a **Lesser Spotted Eagle** hunting next to the road.

Soon, we were on the main road to Warszawa, stopped for teas/coffees and summed up the whole tour. Safe and happy we finished at the Warsaw Chopin airport on time.

CHECKLIST

BIRDS

Species name	Day 1	Day 2	Day 3	Day 4	Day 5	Day 6	Day 7	Day 8	SUM
Black-necked Grebe <i>Podiceps nigricollis</i>					x				1
Little Grebe / Dabchick <i>Tachybaptus ruficollis</i>				x					1
Great Crested Grebe <i>Podiceps cristatus</i>				x	x				2
Red-necked Grebe <i>Podiceps grisegena</i>					x				1
Great Cormorant <i>Phalacrocorax carbo</i>					x	x			2
Great / Eurasian Bittern <i>Botaurus stellaris</i>				x	x	x			3
Great White Egret <i>Egretta alba</i>		x		x		x		x	4
Grey Heron <i>Ardea cinerea</i>		x		x	x	x	x	x	6

Pygmy-Owl <i>Glaucidium passerinum</i>		X	X						2
Long-eared Owl <i>Asio otus</i>		X							1
Short-eared Owl <i>Asio flammeus</i>					X				1
Hoopoe <i>Upupa epops</i>				X	X	X	X		4
Kingfisher <i>Alcedo atthis</i>						X			1

Black Woodpecker <i>Dryocopus martius</i>		x	x						2
Green Woodpecker <i>Picus viridis</i>					x				1
Grey-headed Woodpecker <i>Picus canus</i>			x						1
Great Spotted Woodpecker <i>Dendrocopos major</i>	x	x							2
Middle Spotted Woodpecker <i>Dendrocopos medius</i>		x	x						2
White-backed Woodpecker <i>Dendrocopos leucotos</i>			x			x			2
Three-toed Woodpecker <i>Picoides tridactylus</i>		x	x						2
Lesser Spotted Woodpecker <i>Dendrocopos minor</i>		x	x						2
Eurasian Wryneck <i>Jynx torquilla</i>		x	x	x					3
Skylark <i>Alauda arvensis</i>				x	x	x	x		4
Woodlark <i>Lullula arborea</i>				x	x	x			3
Sand Martin / Bank Swallow <i>Riparia riparia</i>					x				1
Barn Swallow <i>Hirundo rustica</i>				x	x	x	x		4
Meadow Pipit <i>Anthus pratensis</i>				x	x	x	x		4
Tree Pipit <i>Anthus trivialis</i>		x		x					2
Red-throated Pipit <i>Anthus cervinus</i>						x			1
White Wagtail <i>Motacilla alba</i>			x	x	x	x	x		5
Yellow Wagtail <i>Motacilla flava</i>				x	x	x	x		4
Citrine Wagtail <i>Motacilla citreola</i>							x		1
Wren <i>Troglodytes troglodytes</i>			x						1
Bohemian Waxwing <i>Bombycilla garrulus</i>		x	x	x					3
Hedge Accentor / Dunnock <i>Prunella modularis</i>			x						1
European Robin <i>Erithacus rubecula</i>		x	x						2
Bluethroat <i>Luscinia svecica</i>							x		1
Common Redstart <i>Phoenicurus phoenicurus</i>				x					1
Black Redstart <i>Phoenicurus ochruros</i>			x			x			2
Whinchat <i>Saxicola rubetra</i>				x	x	x	x		4
European Stonechat <i>Saxicola rubicola</i>			x						1
Song Thrush <i>Turdus philomelos</i>	x	x	x	x		x	x		6
Mistle Thrush <i>Turdus viscivorus</i>			x			x	x		3
Fieldfare <i>Turdus pilaris</i>			x	x	x		x		4
Blackbird <i>Turdus merula</i>	x	x	x	x	x	x	x	x	8
Blackcap <i>Sylvia atricapilla</i>	x	x	x	x					4
Lesser Whitethroat <i>Sylvia curruca</i>							x		1
Common Whitethroat <i>Sylvia communis</i>				x					1
Sedge Warbler <i>Acrocephalus schoenobaenus</i>	x					x	x	x	4
Aquatic Warbler <i>Acrocephalus paludicola</i>						x			1
Savi's Warbler <i>Locustella luscinioides</i>						x	x		2
Reed-Warbler <i>Acrocephalus scirpaceus</i>	x			x					2
Great Reed-Warbler <i>Acrocephalus arundinaceus</i>					x	x			2
Willow Warbler <i>Phylloscopus trochilus</i>						x	x		2
Wood Warbler <i>Phylloscopus sibilatrix</i>	x	x	x						3
Chiffchaff <i>Phylloscopus collybita</i>							x		1

Goldcrest <i>Regulus regulus</i>		x	x	x						3
Firecrest <i>Regulus ignicapilla</i>	x		x							2
Pied-Flycatcher <i>Ficedula hypoleuca</i>			x	x						2
Collared Flycatcher <i>Ficedula albicollis</i>			x	x	x					3
Great Tit <i>Parus major</i>	x	x	x							3
Coal Tit <i>Periparus ater</i>				x						1
Blue Tit <i>Cyanistes caeruleus</i>			x	x						2
Crested Tit <i>Lophophanes cristatus</i>				x						1
Willow Tit <i>Poecile montanus</i>				x						1
Marsh Tit <i>Poecile palustris</i>					x					1
Long-tailed Tit <i>Aegithalos caudatus</i>								x		1
Penduline Tit <i>Remiz pendulinus</i>					x			x		2
Nuthatch <i>Sitta europaea</i>	x	x	x	x						4
Treecreeper <i>Certhia familiaris</i>			x							1
Short-toed Treecreeper <i>Certhia brachydactyla</i>			x							1
Northern / Great Grey Shrike <i>Lanius excubitor</i>				x	x	x				3
Magpie <i>Pica pica</i>		x			x		x	x		4
Jay <i>Garrulus glandarius</i>		x	x	x	x	x	x			6
